- By **October 1** of each year, written procedures and penalties shall be communicated to all district employees and students.
- Persons designated as district and building test coordinators, as well as test administrators, are responsible for ensuring that test security provisions are met.
- Only authorized personnel are permitted access to secure test materials.
- The district must establish written procedures to protect the security of test materials. These procedures shall include the following:

  - Specify handling and tracking procedures in both the district and building.
  - Specify procedures for investigating any alleged test security violations and penalties for confirmed violations.
  - Specify procedures for determining whether to invalidate a student's test score.
  - Specify that within 10 days of concluding the investigation, the district shall notify the Ohio Department of Education in writing of the finding of such a violation and of any action taken by the school district or participating school. See the Department's *Ohio's State Test Rules Book* for more details of a test security investigation.
  - Specify how written procedures will be communicated annually to employees and students in the district.
- After determination that a test security violation has occurred, the District Board and/or State Board of Education may seek the maximum penalty pursuant to Section 3319.151 of the Ohio Revised Code.
- Each district shall cooperate with the State Board in any investigation of a test security violation.
- Prior to taking action for a test security violation, the State Board shall give notice of any action and provide an opportunity for an individual to respond and present a defense.
- Each Joint Vocational School administering the graduation tests shall comply with this rule.
