Appendix L: Online Testing Highlights and Script

Test administrators must use this document when administering Ohio’s State Tests online. It includes step-by-step directions, the oral script that test administrators must read aloud (printed in bold letters), descriptions of test settings and accommodation codes, and troubleshooting tips. This document provides key information that test administrators need on test day. Be sure to review the Spring 2021 Test Administration Manual for additional information.

Step 1. Prepare for the Administration

☐ Have available the information students will need for signing in: first name and SSID (Student ID for students who do not have an SSID). Test administrators may print test tickets to distribute to students on test day; find instructions in the TIDE User Guide.

☐ Have available each student’s accessibility features information. If a student will use the text-to-speech feature, the student must use headphones. If the student is tested in a one-on-one situation, speakers are allowable.

☐ Have access to the Test Administrator User Guide. The user guide provides complete information regarding the TA Interface and Student Testing Site.

☐ Have available at least two sheets of blank paper for each student (required for English language arts; by student request or at district direction for other subjects).

☐ The online Student Testing Site includes the allowable calculator for mathematics tests; use of approved handheld calculators is at district or school discretion. If students will be using an approved handheld calculator, confirm that the memory has been cleared before and after each testing session. Note: Clearing the memory may reset mode to radians, if needed, you may need to show your students how to change the mode to degrees. See the Ohio Department of Education’s website for calculator policies.

☐ The online Student Testing Site includes the reference sheets for mathematics tests; use of the paper reference sheet is at district or school discretion. If students wish to use paper copies of the reference sheet, students may use only the reference sheet posted on the Student Practice Resources section of the Ohio’s State Tests portal within the mathematics folder. The test administrator must provide the sheet; students may not bring their own copies.

☐ Prepare the test room. Ensure charts, maps and other materials in the room that could assist students with test items are covered or removed before the test administration.

☐ Close all open applications on students’ devices and launch the Secure Browser or SecureTestBrowser app.
Step 2. Establish a Test Session

To test online, students must sign into an active test session and be approved for testing by the test administrator. Test administrators can establish test sessions only on test day, immediately before students begin testing. Note that the TA Interface will log out test administrators whose sessions are idle for more than 20 minutes. Therefore, test administrators should establish the test session within 20 minutes of when students will sign in.

2a. Navigate to the TA Interface on the test portal, then log in.

2b. After logging in, the test selection screen is immediately available. Click the next to a subject to see the list of available grades or tests for an administration. Click the + next to a grade or test to see the available tests and test parts.
2c. Click the checkbox next to a test part to include it in the test session. Confirm that you have selected the Spring 2021 administration tests. Spring 2021 administration tests will have either Part 1 or Part 2 after the test name.

Students in your session will be able to take only the tests that they are eligible for and that you select for the session.

If students will take both parts of a test during the session, select both parts of the test for the session. After the student submits one part of the test, he or she will sign in again using the same session ID and select the remaining part of the test.

If students will take only one part of a test during the session, select only that part of the test for the session.

2d. Click the green [Start Operational Tests Session] button to start the session. Upon doing so, the TA Interface will generate the Session ID.

2e. Locate the Session ID. It appears at the top of the TA Interface screen.

Note: The location of the Session ID box may vary depending on your device and width of your browser window. Two examples are shown.

Write your Session ID on the board so that all students can see it.

Please note if students are taking both parts of a test during the session, students will use the same Session ID to sign into both parts.
### Step 3. Introduce Students to the Test Administration

Follow the script in the right column below to introduce the test administration to students. Use these directions for all students when starting a session.

<table>
<thead>
<tr>
<th>For this group of students</th>
<th>Use this script to orient students to the test administration</th>
</tr>
</thead>
<tbody>
<tr>
<td>For all students</td>
<td>SAY: <strong>Today you are taking an Ohio’s State Test for</strong> (provide the test name(s)).</td>
</tr>
<tr>
<td></td>
<td>If administering only one part of the test during the session,</td>
</tr>
<tr>
<td></td>
<td>SAY: <strong>You will take part (1 or 2) of the test today. You will have</strong> (provide the correct testing time*) to take this part of the test.</td>
</tr>
<tr>
<td></td>
<td>If administering both parts of the test during the same session,</td>
</tr>
<tr>
<td></td>
<td>SAY: <strong>You will take parts 1 and 2 of the test today. You will have</strong> (provide the correct testing time*) to take part 1 and (provide the correct testing time*) to complete part 2. You will start with part (1 or 2).</td>
</tr>
</tbody>
</table>

*Note: Grades 6-8 and high school English Language Arts tests (ELA I and ELA II) have two writing prompts as described in the Ohio Blueprint. The total testing times noted for these ELA tests are divided into two sessions of 1 hour and 45 minutes for each test part. Districts may elect to allow students needing additional time to complete the test 30 additional minutes (15 minutes per test part for a total of two hours per test session/part). Districts set the policy for additional time and test coordinators are responsible for communicating the policy to appropriate personnel. If allowed, not all students will need this additional time, and, in some sessions, no students will need this time. Schools also should provide students with disabilities additional time as needed, according to their individualized education programs.

Unless the student test clock has been set to off for all students:

SAY: **You will be able to track how much time you have been in the test by looking at the clock in the upper right corner of your screen. This clock only runs while you are in the test. You can click on the clock to hide the time and click on the clock again to show the time.**

---

```
<table>
<thead>
<tr>
<th>Test Clock Shown</th>
<th>Test Clock Hidden</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image" alt="Test Clock Shown" /></td>
<td><img src="image" alt="Test Clock Hidden" /></td>
</tr>
</tbody>
</table>
```

<td>----------------------------------------------------------</td>
</tr>
</tbody>
</table>
| For students who will be released immediately after they submit their tests | If administering both parts of the test during the same session,  
   SAY: **You need to complete all the items on one part of the test and submit that test before you can start the other part of the test. After you submit the first part of the test, log out and go back to the sign-in screen. Type your name, SSID (or Student ID) and the same Session ID. If you need help signing in again, raise your hand. After you submit the second part of the test, please log off your computer. You will then** (provide instructions to students who are released after testing).  
   If administering only one part of the test during the session,  
   SAY: **After you submit your test, please log off your computer. You will then** (provide instructions to students who are released after testing). |
| For students who will not be released after they submit their tests | If administering both parts of the test during the same session,  
   SAY: **You need to complete all the items on one part of the test and submit that test before you can start the other part of the test. After you submit the first part of the test, log out and go back to the sign-in screen. Type your name, SSID (or Student ID) and the same Session ID. If you need help signing in again, raise your hand. After you submit the second part of the test, please log off your computer. You will work on** (refer to the material(s) students should work on). **Place your (material) where you can find it easily, but do not take it out at any time during the test.**  
   If administering only one part of the test during the session,  
   SAY: **After you submit your test, please log off your computer. You will work on** (refer to the material(s) students should work on). **Place your (material) where you can find it easily, but do not take it out at any time during the test.** |
| For all students | **SAY: Does anyone have any questions?**  
   Answer any questions.  
   SAY: **I will now walk you through the steps for starting the test. If someone is having trouble during the test, I will help that student. Students are not allowed to work together.**  
   Proceed to the student sign-in step. |
Step 4. Student Sign-In

In order to sign in and take a test, each student must enter his or her first name (as it appears in TIDE), his or her SSID (or Student ID for students who do not have an SSID) and the Session ID. Follow the script below to start the student sign-in process.

4a. SAY: You should see the test sign-in screen. If you do not see the test sign-in screen, raise your hand.

Launch the Secure Browser or SecureTestBrowser app on the student's device if needed.

4b. SAY: You should see a box in the lower left that states, “This is the Operational Test Site”. If your box does not say this, raise your hand.

If the student's box says “Practice Test Site” instead, have the student click “Take an Operational Test” button.

4c. SAY: Before you can start the test, you must type in three things.

In the First Name box, type your first name only.
In the Student ID box, type your SSID (or Student ID).
In the Session ID box, type the Session ID exactly as it appears on the board. The Session ID is (provide Session ID from Step 2).

Once you have typed in your information, click [Sign In]. After you sign in, you will see a page that says, “Is This You?” Raise your hand if you do not see a page that says, “Is This You?”

If a student is unable to sign in, a message describes the reason for sign-in failure. Refer to the troubleshooting section for possible resolutions.

4d. SAY: Read the “Is This You?” screen. Make sure the information is correct. If the information is correct, click [Yes]. If your information is not correct, raise your hand.

If any of a student’s information is not correct, the student may not continue.

Contact your test coordinator, who will need to update the student's demographic information in TIDE prior to testing.
4e. SAY: The next screen shows “Your Tests.” Click on [provide the test name and part]. If you need help, raise your hand.

Students can select only one test at a time. If students will take both parts of the test during the session, they will select one part of the test (e.g., part 1). After they submit that part of the test, they will sign in again using the same session ID and select the remaining part of the test (e.g., part 2).

If the correct test is not available, see the troubleshooting section for possible resolutions.

SAY: After you have clicked on your test, you will see a message that says you are waiting for approval. Please wait for approval and the next set of instructions.
### Step 5. Approve Students for Testing

**5a.** Once students begin appearing in the approvals queue, click the [Approvals (#)] button at the top of the TA Interface to open the Approvals and Student Test Settings pop-up window.

*Note: The location of the Approvals box may vary depending on your device and width of your browser window. See two examples at right.*

**5b.** Confirm that the students listed in the Approvals and Student Test Settings window are the students who will be testing during the test session. Make sure each student is listed under the correct test.

Click the lookup icon [ ] to review a student’s accessibility features. (Accessibility features are described in the Test Settings and Accommodations table at the end of this document.)

**5c.** Review and edit a student’s accessibility features and accommodation codes within the Test Settings window.

Do not approve a student if the correct features or accommodation codes are not marked.

*Note: Test settings and accommodation codes vary by test. For a complete guide, refer to the Test Settings and Accommodations table at the end of this document.*

Click [Set] to confirm the settings and return to the Approvals and Student Test Settings box.

Click [Set & Approve] to confirm the settings and approve a student’s test.
5d. If a student’s test settings do not require updating, click the green check box to approve an individual student (recommended) or click [Approve All Students] within Approvals and Student Test Settings. After doing so, each approved student will advance to the “Is This Your Test?” screen.

Click the red X to deny a student’s request to access the test. You will be prompted to enter a reason why the student’s request was denied (e.g., the student selected the wrong test).
Step 6. Text-to-Speech Sound Check (if applicable)

Students who have the text to speech function turned on will see an Audio/Video Checks screen. The “Text-to-Speech Sound Check” panel allows students to verify their audio for this function.

If your students are not using text to speech but see the sound check panel, this means the feature will be available. To disable text-to-speech, instruct students to click [Back]. Clicking Back returns students to the Your Tests page. From that page, student will click [Resume “test name”], this moves students to the Waiting for Approval screen. From the Approvals and Student Test Settings screen; correct the test settings when approving students to test.

The sound settings display the voice pack that will be used for text-to-speech. If more than one voice pack is installed on the computer, a drop-down menu will be available. Additionally, depending on the student’s device, three slider bars may be available to allow users to adjust volume, pitch and rate.

Note: Students taking a Bilingual English-Spanish test with text-to-speech will have a Spanish audio check panel below the English audio check panel.

If your students are using text-to-speech,

SAY: **Click the speaker button at the top of the screen. The computer should say, “This text is being read aloud.”**

If you want to change the volume, pitch or rate, move the slider bars and click the speaker button again.

If you heard the voice and like your settings, click the green [I heard the voice] button and then click the green [Continue] button. After you click the Continue button, you will see the Instructions and Help page.

If you did not hear the voice, raise your hand.

Assist students as needed. If students do not hear the text being read aloud, confirm the audio is on and that the device contains a compatible voice pack. If students are using headphones, confirm that they are correctly plugged in and are not muted. Refer to the “Testing with Text-to-Speech” section of the Assistive Technology Manual for additional information.
Step 7. Review the Instructions and Help Information

The review test instructions and help information screens have been updated.

SAY: The Instructions and Help page provides a link to review your test settings by clicking the View Test Settings button. The Help Guide, which has information about test navigation, tools and features, can be reviewed now by clicking the View Help Guide button. If you want to refer to this information during the test, click on the question mark in the top right corner of your screen. To review your test settings, click the View Test Settings button. Lastly, the page contains a message regarding test security, please review the information under the heading Additional Test Information.

If you have any questions regarding the Help Guide, the Additional Testing information or if any of your test settings are incorrect, raise your hand.

If any settings are incorrect, the student should click [Return to Login]. When the student logs back in, correct the test settings when approving the student to test.

The availability of Student Testing Site tools depends on whether certain accessibility features, such as masking, are turned on and which test the student is taking. More detailed information on the Student Testing Site tools is available in the Test Administrator User Guide.

Test administrators may prefer that all students start the test at the same time. Note, however, the bandwidth requirements of the test are greatest when students click [Begin Test Now]. If all testers click [Begin Test Now] at the same time, it may temporarily affect the speed of the network.

SAY: When you are ready to start your test, click [Begin Test Now].

When students click [Begin Test Now], the Student Testing Site will present the first question.
Step 8. Monitor the Administration

8a. Monitor Testing and Ensure Test Security

Use the TA Interface to view the testing progress of any student. The site will not show test questions or scores, but the student Progress column shows a bar graphic of your student’s testing progress. The student Time column displays the approximate time each student has been in the test. The timer only runs while the student is viewing test content. The timer does not count the time when the student is on log-in pages, the review page or when the test is paused. When a test is resumed after a pause or re-open, the time will continue from the time the test was paused or closed. The online system will not enforce a time limit. Test administrators are responsible for ensuring that students complete each part of their tests within the testing time published on the test portal.

The TA Interface refreshes automatically every minute. You can manually refresh at any time by clicking the refresh icon toward the top of the page.

When the test session first begins, all students will appear under the Tests started/paused/completed heading on the TA Interface. If the system notices an irregularity (example: system crash or student inactivity) the student will show under the Tests requiring TA intervention heading which will appear at the top of the TA Interface, flagging the student for the test administrator’s attention. Click the more info button associated with the student on the screen to see details about this identification. You can provide this information to the Ohio Help Desk to assist in troubleshooting issues.

Note: A test that is paused by the student will appear in the TA Interface under the Test Status column, a paused test has a more info button. Click this button to see details about why the student’s test is paused. You can provide this information to the Ohio Help Desk to assist in troubleshooting issues.

Circulate through the room periodically. Make sure that all conditions of test security are maintained. Assist students with test navigation, as needed, but do not answer questions about test content.

Check the TA Interface at least every 20 minutes to ensure that the session does not close out due to inactivity.
8b. Pausing a Test (if needed)

It may be necessary to pause an individual student’s test (e.g., the student needs a break). A student can pause his or her test from the Student Testing Site or you can click the pause icon  in the Pause Test column to sign the student out of the test.

Reminder: Once a test has been paused, the student will not have access to the Select Previous Version tool in the Context menu to select prior essay responses.

If a student’s test remains paused for the rest of the day, the student will not be able to revisit the test on a subsequent day. If a test needs to be re-opened, the district test coordinator must submit a test status request in TIDE.

If a situation requires all students to stop testing, you can pause all students’ tests by stopping the session. If you stop the session, all in-progress tests will be paused, and the system will sign students out of their tests. Students will not be able to review answers before the system signs students out. If a session is stopped, it cannot be resumed. You will have to create a new session and give the new Session ID to students so that they can sign in and resume testing.

Reminder: The time a test is paused does not reduce the student testing time and the test timer will not include the time elapsed while the test is paused.

8c. Transferring a Session (if needed)

If you have problems with your computer or Web browser or need to change computers during an active test session, you can transfer the session from one computer, mobile device or Web browser to another without stopping the session or interrupting students’ in-progress tests. To transfer a test session to a new device or browser:

• Do not stop or log out of the session you are currently in. If you do, you will end the test session and pause all students’ tests, signing students out of their tests.

• Log into the TA Interface on the new machine or in the new browser. The Active Sessions page appears listing the active session.

• Select Join. The test session page appears allowing you to continue monitoring your students’ progress.

• The test session on the previous computer or browser automatically closes. This will not stop the session or pause student tests.

If you do not wish to return to the active session, you can select Start a New Session Now to open the Test Selection window and create a new test session. Prior to taking this action, students should pause their tests. Remind students that once they pause their tests, they will not be able to select prior essay responses from the Select Previous Version tool. Students will then have to sign in again with your new Session ID.
Step 9. Notify Students about the End of the Test

If administering only one part of the test during the session, when there are approximately 10 minutes left for the test session, let students know they are nearing the end of the testing session.

SAY: **There are 10 minutes left in the test session.**

If administering both parts of the test during the session, students must not test beyond the allotted time. Test administrators must keep track of time and let students know when they only have 10 minutes left to complete a part of their test.

*Note:* It is permissible to notify students of the time remaining in the test session in advance of the last 10 minutes (e.g. “There are 30 minutes left in the test session”). Test administrators still must notify students when 10 minutes are remaining in the test session.
Step 10. Ending the Administration

A student’s test ends if the student submits the test part. If the student reaches the maximum allowable amount of time for the test part but has not submitted his or her test, the test administrator must pause the student’s test to end the student’s administration for that part of the test.

The test administrator ends a test session if all students have submitted their tests within the allowable testing time or the maximum allowable time for that test part has been reached.

Student Submits the Test

When the student clicks [End Test] in the online Student Testing Site, then [Yes] in the subsequent pop-up window to continue, he or she will then view a screen similar to the one shown on the right.

All items (marked and unmarked) are available for the student to review.

After a student clicks [Submit Test], there will be one last pop-up window: Are you sure you want to submit the test? Once the student clicks [Yes], the student will not be able to review test questions or responses.

Student Reaches the Testing Time

If a student reaches the maximum allowable amount of time for a test part, let the student know you will end the test. Pause the student’s test from the TA Interface. The test will remain in paused status; the testing system will force paused tests through to scoring at the end of the day.

Test Administrator Ends the Test Session

If all students within the session submit their tests before the maximum allowable time elapses, then end the session. If the maximum testing time is reached, let students know that the test session is ending.

Click the red [Stop] button next to the Session ID to end the test session. If a student does not submit his or her test, the test will remain in paused status; the testing system will force paused tests through to scoring at the end of the day.

Logout of the TA Interface by clicking [Logout]. A message will appear, asking you to confirm that you want to logout.

Immediately after testing, collect any used and unused scratch paper, white boards and reference sheets from students. Securely shred the paper containing student writing and erase the white boards. If students taking a mathematics test used handheld calculators, confirm that the memory on all calculators is cleared.
Test Settings and Accommodations

Guidelines and policies governing accessibility features can be found in *Ohio’s Accessibility Manual*. A summary of the accessibility features available in the Student Testing Site is available below.

<table>
<thead>
<tr>
<th>Test Setting</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Accommodation Codes</td>
<td>Test administrators should mark <strong>accommodation codes</strong> in the TA Interface for students who are eligible to receive accommodations on the test. Accommodation codes cannot be indicated in TIDE. The accommodation codes do not turn on or off any features in the Student Testing Site. All students have “None” as the default value. The following accommodation codes are available by test.</td>
</tr>
</tbody>
</table>
| English language arts tests: | - Read Aloud  
   - Scribe  
   - Other  
   - None |
| Mathematics tests:         | - Calculator (grades 3-7 only)  
   - Scribe  
   - Other  
   - None |
| Science and social studies tests: | - Scribe  
   - Other  
   - None |

<table>
<thead>
<tr>
<th>General Testing Tools</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Highlighter</td>
<td><strong>Highlighter</strong> is set to “On” by default and allows the student to highlight text.</td>
</tr>
<tr>
<td></td>
<td>This setting can be changed in TIDE and the TA Interface.</td>
</tr>
<tr>
<td>Masking</td>
<td><strong>Masking</strong> is set to “On” by default and allows students to cover an area of the item so they can focus on certain item elements.</td>
</tr>
<tr>
<td></td>
<td>This setting can be changed in TIDE and the TA Interface.</td>
</tr>
<tr>
<td>Strikethrough</td>
<td><strong>Strikethrough</strong> is set to “On” by default and allows the student to cross out answer options for selected response items.</td>
</tr>
<tr>
<td></td>
<td>This setting can be changed in TIDE and the TA Interface.</td>
</tr>
<tr>
<td>Test Clock</td>
<td>The student <strong>Test Clock</strong> is set to “On” by default and displays the amount of time the student has been in the test. The clock only runs while the student is viewing test content. The clock does not count the time when the student is on log-in pages, the review page or when the test is paused. When a test is resumed after a pause or re-open, the time will continue from the time the test was paused or closed.</td>
</tr>
<tr>
<td></td>
<td>The student can collapse or un-collapse the test clock by clicking on it.</td>
</tr>
<tr>
<td></td>
<td>This setting can be changed in TIDE and the TA Interface.</td>
</tr>
<tr>
<td>Test Setting</td>
<td>Description</td>
</tr>
<tr>
<td>---------------------------</td>
<td>---------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Reading Tools</td>
<td></td>
</tr>
<tr>
<td>Paginated Stimuli*</td>
<td><strong>Paginated Stimuli</strong>, when enabled, allows a student to read a passage by flipping pages, similar to a book or e-reader. This eliminates vertical scrolling on passages. Paginated stimuli is set to “On” by default for English language arts and social studies tests. Paginated stimuli is not available for mathematics or science tests. This setting can be changed in TIDE and the TA Interface.</td>
</tr>
<tr>
<td>*Is not compatible with Screen Reader Mode.</td>
<td></td>
</tr>
<tr>
<td>Text-to-Speech</td>
<td><strong>Text-to-speech</strong> is an accessibility feature that speaks aloud words in test questions and descriptions of graphics. Text-to-speech is turned “On” by default for all students taking mathematics, science and social studies tests. For students taking English language arts tests, text-to-speech is turned “Off” by default. Text-to-speech is considered a reading access accommodation for English language arts tests. See <a href="#">Ohio’s Accessibility Manual</a> for guidance. Use of the text-to-speech feature requires the student’s device to have a voice pack installed. If the student will be testing with the Spanish form, the device must have both an English and Spanish voice pack installed. This setting can be changed in TIDE and the TA Interface.</td>
</tr>
<tr>
<td>Text-to-Speech Tracking</td>
<td><strong>Text-to-speech tracking</strong> is an accessibility feature that highlights words in test questions as the words are spoken aloud. Text-to-speech tracking is turned “On” by default for all students taking mathematics, science and social studies tests and is “Off” by default for students taking English language arts tests. Text-to-speech tracking is not available for most graphics, although it may be available for some (but not all) tables. This setting can be changed in TIDE and the TA Interface.</td>
</tr>
<tr>
<td>Group Oral</td>
<td><strong>Group Oral</strong> ensures that a group of students receiving a read aloud accommodation receive the same sequence of items and is “Off” by default for all tests. There is no group oral test version for the English Language Arts I test as there is only one test form. This setting can be changed in TIDE and the TA Interface.</td>
</tr>
</tbody>
</table>
### Test Setting

<table>
<thead>
<tr>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Line Reader</strong> allows the student to highlight a line of text as they read. There are three options for this feature:</td>
</tr>
</tbody>
</table>

1. **Enhanced line reader** is “On” by default and highlights the student selected text line and greys out all non-selected text.
2. **Classic line reader** highlights only the student selected text.
3. The line reader feature can also be turned off.

This setting can be changed in TIDE and the TA Interface.

#### Enhanced Line Reader

![Enhanced Line Reader Image]

#### Classic Line Reader

![Classic Line Reader Image]
<table>

</tr>
</thead>
<tbody>
<tr>
<td><strong>Visual Tools</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Screen Reader Mode</strong></td>
<td><strong>Screen Reader Mode</strong> is an accommodation for students with visual impairments who use screen readers. Screen Reader Mode is set to “Off” by default. This mode changes the presentation of items. <strong>Note:</strong> This mode offers a vertical presentation (rather than displaying item elements side-by-side) and offers more white space. See an example below.</td>
</tr>
</tbody>
</table>
| **Standard Mode** | | **Screen Reader Mode**

```
Two students are pushing blocks of different masses along the floor. They start the blocks at the same position and time and try to push them so that each block gets to the same finish position at the same time.

A. Move a block to each starting position.
B. Move an arrow to the left of each block to represent the amount of force needed for each block to get to the finish position at the same time.
- The length of the arrow represents the amount of force used to push the block.
- Place only one object in each blank box.
- There may be more than one correct answer.

*masses/weights
```

**IMPORTANT:**
- Students who are working in this mode will not see animations for those item types. Instead, alternative text will display that describes the animation.
- Students who are working in this mode must use the context menu (  ) to access tools such as text-to-speech (if turned on) and highlighting.
- Screen Reader Mode is not available for the biology test.

This setting can be changed manually in TIDE and the TA Interface. It is not available to turn on via a test settings upload.

*Is not compatible with Paginated Stimuli.*

| **Color Choice** | The following background colors are available in addition to the default “Black on White”. NOTE: The background color of some graphics will not change.  
- Light Yellow  
- Reverse contrast (black background with white text)  
- Light Blue  
- White on Navy (navy background with white text)  
- Light Magenta  

This setting can be changed in TIDE and the TA Interface. |
| **Mouse Pointer** | The following pointer sizes and colors are available in addition to the system default.  
- Large Black  
- Extra Large Black  
- Large Green  
- Extra Large Green  
- Large Red  
- Extra Large Red  
- Large Yellow  
- Extra Large Yellow  
- Large White  
- Extra Large White  

This setting can be changed in TIDE and the TA Interface. |
| **Print Size** | The default print size is approximately 12 point; other sizes (levels 1-4) scale up. 
This setting can be changed in TIDE and the TA Interface. |
| **Other Tools** | |
| **Permissive Mode** | **Permissive Mode** is for those few students with disabilities who need to use specialized software or assistive technology in the Secure Browser or SecureTestBrowser app; permissive mode enables them to do so. For additional information, refer to the Assistive Technology Manual and the Assistive Technology Guidelines in Ohio’s Accessibility Manual (with appendices). Use of this tool requires approval by the Department prior to testing (request at least 72 hours prior to testing by contacting the Ohio Help Desk at 1-877-231-7809 or OHHelpDesk@cambiumassessment.com). Permissive mode cannot be enabled from the TA Interface or TIDE. |
| **Language** | English and Bilingual English-Spanish are only available for mathematics, science and social studies tests. **English language arts tests are never translated.** 
The default setting is English. 
This setting can be changed in TIDE and the TA Interface. |
# Troubleshooting

<table>
<thead>
<tr>
<th>Description</th>
<th>What to Do</th>
</tr>
</thead>
<tbody>
<tr>
<td>During student sign-in, the following message displays: Please check that your information is entered correctly. If you need help, ask your test administrator.</td>
<td>Verify that the student has entered the correct first name and SSID or Student ID as they are entered in TIDE. If necessary, use the Student Lookup Tool located in the TA Interface to verify that the student is preidentified.</td>
</tr>
<tr>
<td>During student sign-in, the following message displays: Session ID does not exist.</td>
<td>Verify that the student has entered the correct Session ID with no extra spaces or characters. Verify that the session was created in the TA Interface (not the TA Practice Site) and that the student is logging into the Student Testing Site (not the Student Practice Site).</td>
</tr>
<tr>
<td>During student sign-in, the following message displays: The testing session is closed.</td>
<td>Verify that the student entered the correct Session ID for the session that is active in the TA Interface. Verify that the Session ID is active in the TA Interface.</td>
</tr>
<tr>
<td>A test the student is eligible for was not included in the test session.</td>
<td>Click [Select Tests] in the TA Interface to add additional tests to the session.</td>
</tr>
</tbody>
</table>
| There are no tests available for the student to select on the “Your Tests” screen. | Verify that a test for which the student is eligible is selected in the TA Interface. For example: ensure that if the student is to take the American History test that the American History test option was selected for inclusion in the test session.  
Verify that student is not marked for Group Oral. If the Group Oral flag is set to “On”, turn it to “Off” in the TA Interface.  
Verify that the student is identified as an online tester in his or her Pre-ID record in TIDE.  
Verify that the student’s test eligibility was not set as “Yes” for the alternate assessment. |
| A test is grayed out and the student cannot select the test on the “Your Tests” screen. | Tests will be grayed out if the student started a test on a previous day but did not submit the test. Refer to the Spring 2021 Test Administration Manual if the student was unable to complete testing in one day due to a test interruption (e.g. illness, loss of internet connectivity).  
Verify that the student has not already taken the test; students can only take each part of the test once. |
<table>

<tr>
<th>Description</th>
<th>What to Do</th>
</tr>
</thead>
<tbody>
<tr>
<td>The wrong accessibility features are listed for the student on the “Is This Your Test?” page.</td>
<td>The test administrator should have the student sign out and then sign back in. Before the test administrator approves the student to start the test, he or she must click the test settings and adjust them to provide the desired accessibility features. Once they are set, the test administrator must approve the student. The student will be able to continue his or her test with the appropriate features. If a student starts testing in English and requires Bilingual English-Spanish (or vice versa), the test administrator must request that the district test coordinator submit a test reset in TIDE. The test administrator will not be able to update the language setting until the reset test status request has been processed.</td>
</tr>
<tr>
<td>A Chromebook message indicates that Kiosk Mode is needed.</td>
<td>Refer to <em>Configurations, Troubleshooting and Advanced SB Installation for ChromeOS</em> for guidance.</td>
</tr>
<tr>
<td>A session ends before the allowable testing time elapses.</td>
<td>Log in and start a new session. Provide the students with the new Session ID.</td>
</tr>
<tr>
<td>A student gets signed out of a test while a session is still active.</td>
<td>If a student’s test is interrupted, the student should sign back in and rejoin the session.</td>
</tr>
<tr>
<td>A pop-up message says: “Forbidden applications are running”.</td>
<td>The Secure Browser or SecureTestBrowser app will not allow the student to begin testing if forbidden applications are running. Close any open applications then re-launch the Secure Browser or SecureTestBrowser app.</td>
</tr>
</tbody>
</table>
| A student’s test freezes. | Force quit the Secure Browser or SecureTestBrowser app and re-launch it. Have the student sign back in. If another device is available, the student can sign in on that device. Force quit commands include:  
  - Windows: [Ctrl] + [Alt] + [Shift] + [F10]  
  - Mac OS X: [Ctrl] + [Alt] + [Shift] + [F10] (The Ctrl key may appear as Control, Ctrl, or ^)  
  - Linux: [Ctrl] + [Alt] + [Shift] + [Esc]  
No force quit commands exist for mobile devices. Instead do the following:  
  - Chromebook: Power off the Chromebook.  
  - iOS (iPads): Close the SecureTestBrowser app as you would any other iOS app. |

</tbody>
</table>
| A student receives an error message (usually five digits) while taking the operational test. | Record the error message and check the [Message Codes](#) guidance document for additional information. For additional assistance, contact the Ohio Help Desk at 1-877-231-7809 or [OHHelpDesk@cambiumassessment.com](mailto:OHHelpDesk@cambiumassessment.com).  
If you experience technical issues during a test session, have this information available:  
1) Test administrator name or information technology/network contact person and contact information;  
2) SSID(s) of affected student(s);  
3) Test name and test part being administered;  
4) Operating system and device information;  
5) Any error messages and codes that appeared, if applicable;  
6) Information about your network configuration, e.g., wired or wireless Internet network setup. |
| Review screen shows item unanswered, but student believes he or she has answered. | Student should revisit the item and ensure that all parts of the item have a response.                                                                                                                                              |
| A student inadvertently deletes some or all of his or her essay response and the test has **not** been paused and the student has **not** clicked End Test. | A student may recover his or her prior essay response by using the built in Select Previous Version tool from the Context menu. Essay responses are auto saved every two minutes. Essay responses are also saved whenever a student navigates to a different page or item and when the student clicks the save button.  
Note: If the test has been paused or if the End Test has been clicked, no prior responses will be available in the Select Previous Version tool. |
| A student inadvertently deletes some or all of his or her essay response and the test **has** been paused, or student **has** clicked End Test.  
A student’s device **has** lost connectivity and when the student re-accessed the test, the student’s response for the essay question is not his or her desired version. | If the test has been paused, if the device has lost connectivity or if the student has clicked End Test, no prior essay responses will be available in the Select Previous Version tool from the Context menu for the student to select when he or she re-accesses the item.  
Essay responses are auto saved every two minutes. Essay responses are also saved whenever a student navigates to a different page or item and when the student clicks the save button.  
All saved versions are stored in the Cambium Assessment server and a prior version can be restored with Department approval; call the Ohio Help Desk at 1-877-231-7809 or [OHHelpDesk@cambiumassessment.com](mailto:OHHelpDesk@cambiumassessment.com) to request the restoration. Provide SSID, test name, test part, question number and if the student will continue testing in that test part the current day.  
**Note:** The response may not be able to be restored the same day. The student may need to return another day to complete his or her response to the question using the restored version. |
